## WORK EXPERIENCE

**Front-end Developer** – Invotech, Islamabad

**Nov 2023 – Apr 2024**

- Developed and maintained business websites using HTML, CSS, Tailwind, Bootstrap and React.js.
- Participated in Web development and deployment tasks along with Project Managers.

## EDUCATION

**BS-Computer Science** – virtual University, Islamabad

**Fall 2021- Present**

- Coursework includes Web Development, Cloud Computing, Computer Network, Object Oriented & Modern Programming Languages.

## KEY PROJECTS

**Medical Billing | Company Project | 2024**

- Experienced medical billing professional with expertise in processing claims and payments, ensuring compliance with coding guidelines and insurance regulations.
- Skilled in revenue cycle optimization, proficient in billing software, and effective in issue resolution with patients and insurers. Known for accuracy, efficiency, and organizational skills.

**Spotify Clone App | Course Project | 2024**

- I'm developing a Spotify clone app with a main screen for navigation and a dedicated screen for song details. This project aims to replicate key Spotify features for a seamless music streaming experience.
